Laboratory Report

Test Name	Sample Type	Result
SARS-CoV-2 (COVID-19) BY RT-PCR	Nasopharyngeal Swab	NEGATIVE
Remarks :		
Negative result indicates that either SARS-CoV-2 (COVID-19) is not present in the sample or present below the detected limit of the assay. If clinical symptoms persist or other reasons contradict the test result, repeating the test in 3-4 days is recommended.		
Note: Please adhere to the recommendations published by the Ministry of Health.
